

DOLLAR BOT

Track Every Penny, Save Every Dollar !

REPO LINK

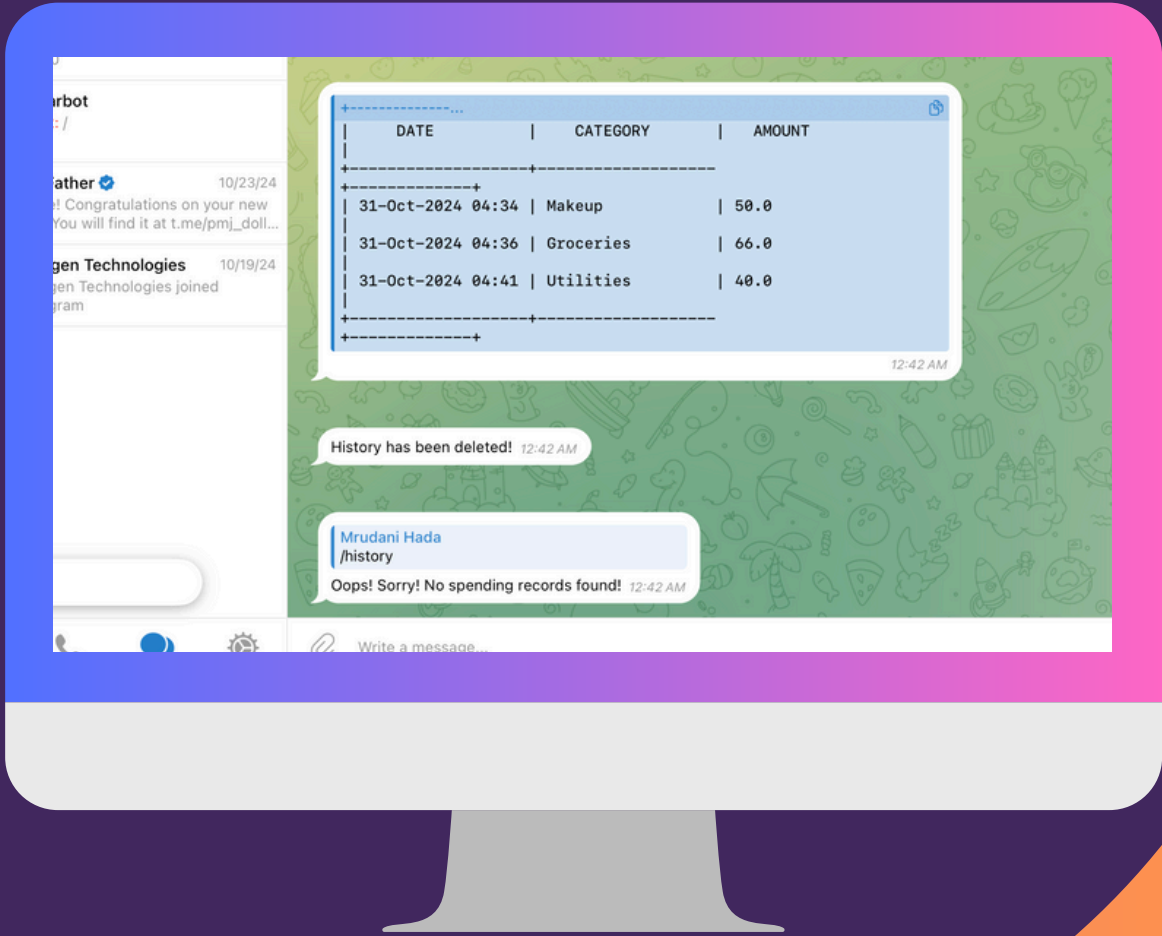

DEMO VIDEO

ABOUT

DollarBot is a user-friendly Telegram bot designed to make managing daily expenses effortless. With simple commands, you can record new spendings, view daily and monthly totals, and access a detailed spending history. DollarBot allows you to edit, delete, or clear expenses easily and supports group expense tracking, so you know exactly who owes whom. Customize your spending categories, set budgets, and get insights through visualizations like bar graphs with budget lines. For a comprehensive view, generate sleek PDF reports, and stay on track with daily reminders. DollarBot simplifies expense management, keeping you in control of your finances with ease.

WHAT'S NEW ?

- **Multi-User Expense Tracking:** Effortlessly manage shared costs and see who owes whom, making settling up a breeze!
- **Enhanced CSV Support:** Now includes a detailed group expense column, optimized for easy parsing in machine learning applications
- **Dual PDF Responses:** Receive PDF summaries for both Expense Tracking and Owing Tracking for clearer insights
- **Edit Group Expenses:** Easily update existing records and adjust how expenses are shared among teammates
- **Email Notifications:** Stay informed with email updates on all your expense activities, including detailed histories showing payers, amounts owed, and balances
- **Budget Options:** Choose between category-wise and overall budget settings to manage your finances more effectively

This project successfully passes an impressive 164 test cases, showcasing its reliability and robustness!

FUTURE SCOPE

- **Robust Cloud Database Integration:** Implement MongoDB for enhanced data storage and retrieval, ensuring reliable and scalable expense management
- **AI/ML Expense Prediction Model:** Introduce an AI-driven model to intelligently predict and estimate future expenses, helping users plan better
- **Expense Capture via Image Recognition:** Utilize Computer Vision and OpenCV to effortlessly capture expenses from images of physical bills, streamlining data entry
- **Advanced Data Visualizations:** Add interactive charts, including pie charts and line graphs, for clearer insights into your spending patterns
- **Currency Converter Tool:** Incorporate a currency converter to facilitate smooth expense tracking for users across different regions

GROUP 25: Mrudani Hada, Parth Parikh, Jamnesh Patel

Sum total of Self Assessment (COLUMN B)= **234**

COLUMN A (RUBRICS)	COLUMN B (SELF ASSESSMENT)	COLUMN C (EVIDENCE)
Workload is spread over the whole team (one team member is often Xtimes more productive than the others but nevertheless, here is a track record that everyone is contributing a lot)	2	https://github.com/ymdatta/DollarBot/compare/main...Mrudanihada:DollarBot:Updated_2.0
Number of commits	3	https://github.com/ymdatta/DollarBot/compare/main...Mrudanihada:DollarBot:Updated_2.0 (222)
Number of commits: by different people	3	Mrudani-91 Parth-90 Jamnesh-41 https://github.com/ymdatta/DollarBot/compare/main...Mrudanihada:DollarBot:Updated_2.0
Issues reports: there are many	3	We worked in our local PC's as we had to enter a new functionality of group expense and that led to change of almost all files and a bit of the UX. Hence, we don't have that evidence in GH.
Issues are being closed	3	
Docs: doco generated, format not ugly	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0/docs/UserTutorialDocuments
Docs: what: point descriptions of each class/function (in isolation)	3	
Docs: how: for common use cases X,Y,Z mini-tutorials showing worked examples on how to do X,Y,Z	3	

Docs: why: docs tell a story, motivate the whole thing, deliver a punchline that makes you want to rush out and use the thing	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0?tab=readme-ov-file#punch-line
Docs: short video, animated, hosted on your repo. That convinces people why they want to work on your code.	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0?tab=readme-ov-file#description
Use of version control tools		
Test cases exist	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0/test
Test cases are routinely executed	2	
Issues are discussed before they are closed	3	We've had in-person meetings and a Whatsapp Group for discussion
Chat channel: exists	1	
Test cases: a large proportion of the issues related to handling failing cases.	2	
Evidence that the whole team is using the same tools: everyone can get to all tools and files	3	
Evidence that the whole team is using the same tools (e.g. config files in the repo, updated by lots of different people)	3	
Evidence that the whole team is using the same tools (e.g. tutor can ask anyone to share screen, they demonstrate the system running on their computer)	3	
Evidence that the members of the team are working across multiple places in the code base	3	
Short release cycles	3	
The file .gitignore lists what files should not be saved to the repo. See [examples](https://github.com/github/gitignore)	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/.gitignore
The file INSTALL.md lists how to install the code	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/INSTALL.md

The file LICENSE.md lists rules of usage for this repo	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/LICENSE
The file CODE-OF-CONDUCT.md lists rules of behavior for this repo; e.g. see example	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/CODE_OF_CONDUCT.md
The file CONTRIBUTING.md lists coding standards and lots of tips on how to extend the system without screwing things up; e.g. see example	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/CONTRIBUTING.md
The file README.md contains all the following	3	
Video	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/README.md#demo
DOI badge: exists. To get a Digital Object Identifier, register the project at Zenodo .	3	https://zenodo.org/records/14019203
Badges showing your style checkers	3	https://github.com/Mrudanihada/DollarBot/actions/workflows/styleChecker.yml/
Badges showing your code formatters.	3	https://github.com/Mrudanihada/DollarBot/actions/workflows/autopep8.yml/
Badges showing your syntax checkers	2	https://github.com/Mrudanihada/DollarBot/actions/workflows/styleChecker.yml/
Badges showing your code coverage tools	3	https://app.codecov.io/gh/sak007/MyDollarBot-BOTGo
Badges showing any other Other automated analysis tools	0	
Does your website and documentation provide a clear, high-level overview of your software?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/README.md

Does your website and documentation clearly describe the type of user who should use your software?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/CODE_OF_CONDUCT.md
Do you publish case studies to show how your software has been used by yourself and others?	0	
Is the name of your project/software unique?	1	
Is your project/software name free from trademark violations?	1	
Is your software available as a package that can be deployed without building it?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/setup.py
Is your software available for free?	3	Telegram
Is your source code publicly available to download, either as a downloadable bundle or via access to a source code repository?	3	GitHub
Is your software hosted in an established, third-party repository like GitHub (https://github.com), BitBucket (https://bitbucket.org), LaunchPad (https://launchpad.net) or SourceForge (https://sourceforge.net)?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0
Is your documentation clearly available on your website or within your software?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/README.md
Does your documentation include a "quick start" guide, that provides a short overview of how to use your software with some basic examples of use?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/INSTALL.md
If you provide more extensive documentation, does this provide clear, step-by-step instructions on how to deploy and use your software?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0/docs
Do you provide a comprehensive guide to all your software's commands, functions and options?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0/doc

		s/UserTutorialDocuments
Do you provide troubleshooting information that describes the symptoms and step-by-step solutions for problems and error messages?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0?tab=readme-ov-file#interrobang-troubleshooting
If your software can be used as a library, package or service by other software, do you provide comprehensive API documentation?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/.gitignore
Do you store your documentation under revision control with your source code?	3	
Do you publish your release history e.g. release data, version numbers, key features of each release etc. on your web site or in your documentation?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/CHANGELOG.md
Does your software describe how a user can get help with using your software?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0/docs/UserTutorialDocuments
Does your website and documentation describe what support, if any, you provide to users and developers?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0?tab=readme-ov-file#support
Does your project have an e-mail address or forum that is solely for supporting users?	3	pmjse03@gmail.com
Are e-mails to your support e-mail address received by more than one person?	3	
Does your project have a ticketing system to manage bug reports and feature requests?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/CONTRIBUTING.md
Is your project's ticketing system publicly visible to your users, so they can view bug reports and feature requests?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/CONTRIBUTING.md
Is your software's architecture and design modular?	3	https://github.com/Mrudanihada/DollarBot/t

		ree/Updated_2.0/code
Does your software use an accepted coding standard or convention?	3	
Does your software allow data to be imported and exported using open data formats? e.g. GIF, SVG, HTML, XML, tar, zip, CSV, JSON, NetCDF, or domain specific ones	3	JSON, CSV, PDF, GIF
Does your software allow communications using open communications protocols? e.g. HTTP, FTP, XMPP, SOAP over HTTP, or domain-specific ones	3	SMTP
Is your software cross-platform compatible? e.g. does it run under two or more of Windows, Unix/Linux and Mac OS X, or can be used from within two or more of Internet Explorer, Chrome, Firefox and Safari?	3	
Does your software adhere to appropriate accessibility conventions or standards?	2	
Does your documentation adhere to appropriate accessibility conventions or standards?	2	
Is your source code stored in a repository under revision control?	3	Git
Is each source code release a snapshot of the repository?	0	
Are releases tagged in the repository?	3	https://github.com/Mrudanihada/DollarBot/releases
Is there a branch of the repository that is always stable? (i.e. tests always pass, code always builds successfully)	3	main - https://github.com/Mrudanihada/DollarBot/tree/main/code Updated_2.0 - https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0/code

		ree/Updated_2.0/code
Do you back-up your repository?	1	
Do you provide publicly-available instructions for building your software from the source code?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/INSTALL.md
Can you build, or package, your software using an automated tool?* e.g. Make (https://www.gnu.org/software/make/), ANT (http://ant.apache.org/), Maven (https://maven.apache.org/), CMake (https://cmake.org/), Python setuptools (https://pypi.python.org/pypi/setuptools), or R package tools (https://cran.r-project.org/doc/manuals/r-devel/R-exts.html)	0	
Do you provide publicly-available instructions for deploying your software?	0	
Does your documentation list all third-party dependencies?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0?tab=readme-ov-file#development-tools
Does your documentation list the version number for all third-party dependencies?	3	
Does your software list the web address, and licences for all third-party dependencies and say whether the dependencies are mandatory or optional?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0/code
Can you download dependencies using a dependency management tool or package manager?* e.g. Ivy (http://ant.apache.org/ivy/), Maven (https://maven.apache.org/), Python pip (https://pypi.python.org/pypi/pip) or setuptools (https://pypi.python.org/pypi/setuptools), PHP Composer (https://getcomposer.org/), Ruby gems (https://rubygems.org), or R PackRat (https://rstudio.github.io/packrat/)	3	<div>Unset</div> <pre>pip install -r requirements.txt</pre>

Do you have tests that can be run after your software has been built or deployed to show whether the build or deployment has been successful?	3	https://app.travis-ci.com/github/sak007/MyDollarBot-BOTGo/builds/241397136
Do you have an automated test suite for your software?	1	
Do you have a framework to periodically (e.g. nightly) run your tests on the latest version of the source code?	1	
Do you use continuous integration, automatically running tests whenever changes are made to your source code?	3	
Are your test results publicly visible?	0	
Are all manually-run tests documented?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0/test
Does your project have resources (e.g. blog, Twitter, RSS feed, Facebook page, wiki, mailing list) that are regularly updated with information about your software? e.g. release announcements, publications, workshops, conference presentations	0	
Does your website state how many projects and users are associated with your project?	0	
Do you provide success stories on your website?	0	
Do you list your important partners and collaborators on your website?	0	
Do you list your project's publications on your website or link to a resource where these are available?	0	
Do you list third-party publications that refer to your software on your website or link to a resource where these are available?	0	
Can users subscribe to notifications to changes to your source code repository?	0	

If your software is developed as an open source project (and, not just a project developing open source software), do you have a governance model?	0	
Do you accept contributions (e.g. bug fixes, enhancements, documentation updates, tutorials) from people who are not part of your project?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/CONTRIBUTING.md
Do you have a contributions policy?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/CODE_OF_CONDUCT.md
Is your contributions' policy publicly available?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/CONTRIBUTING.md
Do contributors keep the copyright/IP of their contributions?	0	
Does your website and documentation clearly state the copyright owners of your software and documentation?	0	
Does each of your source code files include a copyright statement?	3	License Statement
Does your website and documentation clearly state the licence of your software?	3	https://github.com/Mrudanihada/DollarBot/blob/main/LICENSE
Is your software released under an open source licence?	3	
Is your software released under an OSI-approved open-source licence?	3	
Does each of your source code files include a licence header?	3	https://github.com/Mrudanihada/DollarBot/blob/Updated_2.0/code/code.py
Do you have a recommended citation for your software?	0	
Does your website or documentation include a project roadmap (a list of project and development milestones for the next 3, 6 and 12 months)?	3	https://github.com/Mrudanihada/DollarBot/tree/Updated_2.0?tab

		=readme-ov-file#roadmap
Does your website or documentation describe how your project is funded, and the period over which funding is guaranteed?	0	
Do you make timely announcements of the deprecation of components, APIs, etc.?	0
